

ASME B31.3 PROCESS PIPING

LECTURER: Mr. R. Peter Deubler, P. Eng
DATE: October 19-20, 2020
LOCATION: ANRIC Enterprises Inc., 701 Evans Ave., Suite 202, Toronto
FEE: Register four weeks before and pay at time of registration: **\$1,495.00** (pp/plus HST)
Registrations received within four weeks: \$1,645.00 (pp/plus HST)

OBJECTIVE:

The objective of this course is to provide participants with an understanding of the design requirements, the basis for these requirements and their relationship with the materials, fabrication, and examination requirements.

CONTENTS: A two-day course consisting of the following:

DAY 1:	DAY 2:
<ul style="list-style-type: none"> • Introduction • Scope of B31.3 • Responsibilities • Fluid Services • Safeguarding • Allowable Stress • Design Qualifications • Loadings 	<ul style="list-style-type: none"> • Standard Components • Loadings • Pressure Design • Flexibility • Pressure Relief Systems • Material - Design • Fabrication – Design • Category Specific

WHO SHOULD ATTEND?

The B31.3 course is directed toward designers and personnel who are required to understand the basis for the design requirements of this code. Personnel attending should have some understanding of piping design and a willingness to participate in discussion activities related to the Code requirements.

EXPECTATIONS:

Course participants with adequate experience will have attained the following information at the end of the course:

1. An understanding of the concepts used in the B31.3 Code to maintain Pressure Boundary Integrity and operate in a safe manner when subjected to the specified loading conditions.
2. A working knowledge of the relationship between the design of the piping systems and the response of piping components to loading.

LECTURER:

Mr. R. Peter Deubler has spent 40 years working in the area of power plant design and has spent over 25 years as a member of various code committees. Since early in his career he has been involved in the design of both nuclear and fossil power plants and has participated in many code committees involving both of these areas. He is currently a member of two ASME Standards Committees, one for Section III for Nuclear Facility Components and one for B31 Piping Standards. In addition, he is a member of eight other committees. His committee work has been focused on the area of piping supports and he has chaired the working group for supports under Section III and the Subgroup Design under Section III, each for 10 years. While chairing these committees, Mr. Deubler has lead efforts to incorporate lessons learned from experience and recent design developments for supports, piping and other components into the design requirements of the codes.

your success is our goal

IMPORTANT INFORMATION:

PAYMENT: Full payment is due at time of registration. Payment can be made via credit card (VISA, MasterCard or American Express) or cheque. **PLEASE NOTE:** Payment is non-refundable.

CANCELLATION POLICY: Cancellation must be received in writing 7 days prior to course start date. If cancellations are made after that date, the cancellation fee will be 50% of the course cost. You may send a substitute. Notification of a substitute must be received at least 48 hours prior to the commencement of the course or a cancellation fee will be charged. **PLEASE NOTE:** The cancellation fee can be discounted towards any future course taken at the ANRIC Learning Centre.

FOOD AND BEVERAGE: At the start of the day juice, fruit, pastries, coffee and tea will be provided before the course. Coffee and Tea will be provided at mid-morning break, including pop in the afternoon and lunch will be provided. Please indicate when you are enrolling for the course if you have any specific food requirements. Every effort will be made to accommodate your needs in this area.

COURSE TIMES: Registration begins at 8:00 a.m. The course will begin at 8:30 a.m. and conclude at 4:30 p.m.

DRESS: Please dress so that you will be comfortable. It is prudent to dress light and bring a light jacket in case you need it during the course. The tolerance to temperature varies for people and sometimes room temperature acceptable to the majority may not be right for an individual.

PARKING: There is parking available for a fee of \$5.00 per day. There is parking at 701 and 703 Evans Ave.

ANRIC Enterprises Inc. specializes in courses of calibre to industry by providing lecturers who have recognized expertise and who are involved with the development and application of Codes and Standards.

ANRIC Enterprises Inc. reserves the right to cancel any course and/or change lecturers.
